

Lyon, France, May 5th 2024

Object : To whom it may concern

The Nos1 knockin mouse model has been developed by genOway in the course of the European FP7 Agressotype project

genOway has developed the Nos1 knockin mouse model using technologies that are either proprietary of genOway or for which genOway has received the necessary licenses from third party. Consequently, and based on its best knowledge, genOway guarantees that the tools, formulas and means used to create the Nos1 knockin mouse model are free from third rights.

For the sake of clarity, genOway does not provide any guarantee regarding the use of the Nos1 knockin mouse model, as the methods, technologies or procedures that will be used by scientists are unknown from genOway

Following the creation of the Nos1 knockin mouse model, genOway has authorized a free and unlimited distribution of the Nos1 knockin mouse model under a double condition

- The distribution to be to Non For Profit organization
- The use to be for Non For Profit applications

All other applications is strictly prohibited, unless formally authorized in writing by genOway
In particular,

- Distribution to For Profit organizations is strictly prohibited, unless formally authorized in writing by genOway
- Use of the Nos1 knockin mouse model to render For Profit applications (like drug testing services, ...) is strictly prohibited, unless formally authorized in writing by genOway

Sincerely yours
