

Dear INFRAFRONTIER User,

You have requested a strain using the Tetracycline controllable expression systems (the "Tet System"), which is covered by a series of patents which are proprietary to TET Systems GmbH & Co. KG ("TET") and which is made available to academic and other not-for-profit institutions free of charge for internal research projects only.

TET Systems' 'Notice to Recipients' (<http://www.tetsystems.com/ip-licensing/licensing/not-for-profit-research>)

NOTICE TO RECIPIENT

Use of the Tetracycline controllable expression systems (the "Tet-System") is covered by European Patents EP 1954811 and 2352833, U.S. Patents 7,541,446, 8,383,364, 9,181,556 and equivalents in other territories which are proprietary to TET Systems GmbH & Co.KG. Not-for-profit and academic research institutions are granted an automatic cost-free license to use the Tet System only for internal, academic research purposes with the receipt of this material, which license specifically excludes the right to sell the Tet System or its component parts to third parties. Transfer of Tet materials to other not-for-profit organizations requires a NOTICE TO RECIPIENT. In accepting these terms, all users acknowledge that the Tet System is experimental in nature, and that the material will not be used in humans. TET Systems GmbH & Co.KG makes no warranties, express or implied of any kind, and hereby disclaims all warranties, representations or guarantees of any kind as to the Tet System, patents or products. For profit entities are required to obtain a license from TET Systems GmbH & Co.KG prior to obtaining any materials or using them for any purpose.

Kind regards,

The European Mouse Mutant Archive – EMMA / INFRAFRONTIER
