

AX88

AX88 is an extremely useful two-way, passive mid-high loudspeaker with a 60° by 55° dispersion.

It provides a cost effective, high quality solution for many diverse and demanding audio applications including arena, stadia, theatrical and entertainment applications. Its high efficiency, wide frequency range and low distortion delivers particularly clear and intelligible speech. AX88s are often selected for acoustically challenging environments such as Ice Arenas and other large venues with a lot of hard surfaces, where the AX88's controlled dispersion keeps reflections to a minimum.

With the addition of Funktion-One bass speakers, AX88s can also be used as a highly effective music system.

Features:

- Controlled and even dispersion
- Funktion-One designed drivers
- Includes stainless steel mounting yoke
- Weather-resistant version available
- 100V line and fire retardant versions available
- Optional scrim for discreet appearance
- Additional metalwork available to fly coherent clusters

Frequency Response (-3dB): 180Hz - 18kHz
 Weight: 27kg (60lbs)
 Nominal Dispersion: 60° Horizontal x 55° Vertical
 Connectors: Wago terminal block

Driver	Crossover Frequencies	Sensitivity (at 1m)*	Power (AES)	Nominal Impedance
2 x 8" + 1"	180Hz - Up	108dB at 2.8V	400W	8Ω

*Measured in free field
