

F55

F55 is an ultra compact loudspeaker for applications requiring wide dispersion near field coverage including bars, theatre front fill, under balcony and domestic use.

This high sensitivity enclosure delivers good vocal intelligibility with excellent clarity and imaging detail; attributes not usually present in compact loudspeakers. Dual 5" drivers manufactured to Funktion-One specification have been carefully optimised with the enclosure tuning for use without processing or system equalisation for natural simplicity and high fidelity. In common with the F81 and F101, out of operating band low frequency protection is incorporated. If additional bass reinforcement is required our smaller bass products including the MB112, MB21OLP and BR115 enclosures make the perfect complement.

Features:

- Ultra-compact enclosure
- Wide and even dispersion
- 5" drivers optimised to Funktion-One specification
- Excellent Sensitivity
- Choice of Neutrik NL4 or Phoenix connector
- M6 mounting points for yoke or wall mount
- Curved powder-coated mild steel grille

Frequency Response (-3dB):	150Hz - 13kHz
Weight:	3.5kg (7.5lbs)
Nominal Dispersion:	90° Horizontal x 45° Vertical
Connectors:	2 x Neutrik NL4 or Phoenix

Driver	Crossover Frequencies	Sensitivity (at 1m)*	Power (AES)	Nominal Impedance
2 x 5"	140Hz - Up	95dB at 2.8V	60W	8Ω

*Measured in free field

Specific crossover settings can be found at www.funktion-one.com/support
