

Evo XSH

Evo XSH is the mid-high section of Evo X fitted with a mounting yoke and connectors. Suitable for any application where wide horizontal dispersion and narrow vertical dispersion are required from a lightweight mid-high unit.

Particularly useful for indoor public address applications with reflective ceilings, where the narrow vertical dispersion reduces excitation of the reverberant field, substantially improving intelligibility.

The latest Funktion-One driver and waveguide design provides exceptional voice clarity and resolution.

- Features:
- Wide horizontal dispersion, narrow vertical dispersion
- Latest Funktion-One driver and waveguide technology
- Lightweight and high SPL
- 2-way active (biamped)
- Mounting yoke fitted as standard

Frequency Response (-3dB):

Weight:

Nominal Dispersion:

Connectors:

280Hz - 18kHz

13.5kg (30lbs) (including yoke)

90° Horizontal x 13° Vertical

2 x Neutrik NL4

Driver	Crossover Frequencies	Sensitivity (at 1m)*	Power (AES)	Nominal Impedance
8"	280Hz - 5kHz	107dB at 4V	200W	16Ω
1"	5kHz - up	109dB at 4V	100W	16Ω

*Measured in free field
