

F118 MkII

The F118 MkII is the single 18" version of the F218 offering a more compact horn loaded enclosure. In common with the F218, the MkII version brings refined loading, improved heat dissipation and an updated driver specification.

It provides strong, well-defined, clean bass from a small and manageable package. The F118 MkII can be supplied with an optional pole mount for use with a wide range of mid-high products including the F101, F1201, F88, R1 and R2SH. An installation version of this enclosure with flying points is also available, which can be effectively used to provide bass extension in distributed audio applications.

Shown with optional stainless steel throat grille

- Features:
- Proven loading design with Andrews’ tuning
 - Powerful and compact
 - Funktion One designed driver
 - Driver orientation provides improved cooling
 - Integral handles
 - Optional throat grille
 - Optional wheels
 - Optional pole mount (35mm diameter)
 - Can be stacked in pairs with F218 MkII

Frequency Response (-3dB):	50Hz – 200Hz
Weight:	50kg (110lbs)
Nominal Dispersion:	Array dependent
Connectors:	2 x Neutrik NL4

Driver	Crossover Frequencies	Sensitivity (at 1m)*	Power (AES)	Nominal Impedance
18"	25Hz – 200Hz	102dB at 2.8V	450W	8Ω

*Measured in half space
