

SB10

Utilising the same design principles as the SB8, the larger SB10 provides higher output and deeper bass.

Perfect for applications where a conventionally sized subwoofer is too large and obtrusive, such as bars, restaurants, retail and galleries.

The small size of the SB10 also makes it suitable for domestic applications, such as a dynamic and precise LFE channel in a home theatre system, or as bass extension for the F5 or F81 in a 2.1 listening or monitoring system.

- Features:
- Bespoke high sensitivity 10" bass driver
  - Powerful and convincing bass in a very small package
  - Dynamic and musical
  - No EQ or controller required - only crossover filters

Frequency Response (-3dB):	45Hz - 300Hz
Weight:	19kg (42lbs)
Nominal Dispersion:	N/A
Connectors:	2 x Neutrik NL4

Driver	Crossover Frequencies	Sensitivity (at 1m)*	Power (AES)	Nominal Impedance
10"	40Hz - 140Hz	98dB at 2.8V	300W	8Ω

\*Measured in half space
